

Year 1 – Week 3 – Weekly Activities

Topic (Geography)

This week we are learning all about maps. Lots of maps have different symbols on to show different objects or places of interest. Look at the map below, what symbols can you see? We can see a P, a boat and a caravan, what do you think these symbols mean?

We would like you to create your own map; this could be a map of your garden, your house or your local area. You could even use your map to help you on your daily exercise.

What symbols would you put on your map? You can use symbols for things you may go past on your walk e.g. a shop, post box, traffic lights, park etc. We are looking to seeing how creative you can be with your symbols! Below are some examples.

Science – Materials

With a bowl of water can you test different objects in your house to see if they float or sink e.g. a rock, a pencil, a stick, grass etc. Can you guess before you do it then see if you were right? Make sure you check with an adult before your put any objects in the water.

Maths

Rolling numbers - Can you teach someone in your house the 2's, 5's and 10's using your rolling numbers. Here's [the link](#) if you need it.

Oak Academy – Week 4

Complete the tasks given over the week. One lesson per day.

<https://www.thenational.academy/online-classroom/year-1/#schedule>

Challenge

Can you write down all the number bonds to 10?

Can you use your number bonds to 10 to help you figure out your number bonds to 20?

Computing

As we are looking at maps this week, we would like you to have a look on [google maps](#) and see if you can find:

- Your house
- Your school
- A shop
- A beach
- A river
- A place of worship

You can use the search bar on the top left to help you. Maybe you can add some of these places on your own map you created.

English

Oak Academy – Week 4

Complete the tasks given over the week. One lesson per day.

<https://www.thenational.academy/online-classroom/year-1/#schedule>

Challenge

Make a poster to show all the 'ie' 'i_e', 'y' and 'igh' sounds. How many different words can you remember? Can you make any alien words?

Phonics – letters and sounds – practise the 'ie' sound using this [link](#).

We would like you to read or listen to a story for at least 20 minutes a day. Here are some ideas below.

Choose any book you may have at home, can you read this book to yourself or to an adult.

If you could make your own ending, how would you change it?

Oxford Owl - register for free on Oxford Owl. Choose an ebook on the website from your book band/age group. Can you read the book to someone else in your house? What was your favourite part of the book? Who was the main character?

<https://www.oxfordowl.co.uk>

Story line – choose a story from here:

<https://www.storylineonline.net>

Wellbeing – Get Active

Set yourself a challenge whilst doing your daily exercise e.g. can you run some of your walk?

You could even link it to geography this week and maybe you can choose the route?

Try some singing - [What makes a family?](#)

PE

Going on our theme of athletics this week we are looking at jumping. What different ways can you jump? How high can you jump? How far can you jump? How can you measure how far you have jumped? Can you use anything around your house or garden to help you? Once you have measured your jump can you try and beat it?
