

This is an overview of the main areas of learning in Year 3 for this week which will link to the learning going on in school.

Year Group: Year 3

WEEK BEGINNING: 07.06.21

Maths

This week we will be continuing to look at time using Oak Academy. Start on [lesson 6](#) and complete a new lesson every day.

Challenge: Think carefully about these challenge questions.

Fluency:

Log onto [TT Rock Stars](#) to improve your speed and recall of multiplication and division facts. Have a go at telling at the time at different times of the day, what time do you get up? How long until lunch? What time did you start playing your favourite game and how long did you spend playing it? The best way to learn the time is by spending just a few minutes every day learning to tell it in every day situations.

English

Oak Academy: This week we are continuing working on non-chronological reports about Portia spiders. Start on [lesson 16](#) and then complete a new lesson every day.

Writing challenge: Poetry

Have a look at the poems of [Allan Ahlberg](#) and read some background information on the poet. Read over some of his poems and think about which one you like best and why you like it. Use the poem **scissors** to write your own poem about something that gets lost in the classroom. You could use some of the same sentences but change them with your own ideas.

Reading: [Have some fun logging on to Bug Club and see what books you have been given to read.](#) Remember you can also access the online edition of First News. Ask a parent or carer to fill in this [form](#) to get free access to the newspaper.

Spelling: This week we are looking at year 3 common exception word spellings, there is a sheet of spellings and a quiz to complete on Purple Mash.

Irresistible Learning:

Italian Adventure-Roman Food

This week we are looking at the range of food that both rich and poor Romans ate. Look at the word bank to see some of the unusual foods that they ate. There is a PowerPoint uploaded as a 2Do for you to have a look at and you could also use this [link](#) to learn about Roman foods. Complete the 2Do on Purple Mash to create your own Roman menu, this can then be shared onto our year three display board.

Science-Plants

[Watch](#) this clip about seed dispersal and then this [clip](#), then have a go at writing an explanation about how seeds are dispersed in different ways.

Wellbeing – Caring for the Earth

It is **World Oceans Day** on the **8th June**. Did you know that about 1 million seabirds die from plastic every year? Why not start a campaign about the use of plastic bags in your community? Or think of ways to help protect our sea creatures. Have a look at these [example campaign posters](#) for inspiration (scroll down for the different images). Think about how you can make a difference at home by recycling and reusing plastic, you could make a pledge to try and use less plastic.
