

Year 2 – Week 10 – Weekly Activities

**Topic (Art - History - Geography)**

During our 'Journeys into the Unknown' topic we have focused on our local area. For your task this week we would like you to think about another country in the UK or another one anywhere in the world and learn about it. This could be somewhere you have visited or somewhere you have read about or been told about.

**Task**

Can you make a fact file about your chosen country?

**Tip 1** Think about these questions:

- Where is it?
- What does their flag look like? Why?
- What animals live there?
- Is there anything they are famous for?
- What food might you eat there?

**Science –**

For your science, we would like you to continue experimenting. Experiments can be really fun and help us to learn. Choose an experiment you would like to conduct using items from around your house. Look [here](#) for ideas. We would love to hear about the experiments you have been doing. Feel free to email us to tell us all about them through our school email.

**Maths**

[Oak Academy](#) (click link)– **Week 11**

One Maths lesson per day.

**\*Additional Maths Challenge\***

Find a group of items from around your house eg. toy cars, pieces of fruit, sweets or lego pieces. Can you equally split these into groups of 2? Groups of 3? Groups of 4? Remember to make sure each group has an equal amount. See if you can work out the number sentences.

Eg.

6 cookies divided into 2 groups equals 3 cookies each.

$6 \div 2 = 3$

**Fluency**

When looking at division it would help us to be able to recognise multiples of a number.

**(TIP 2** Multiples are a number which can be equally divided by another number. For example 12 is a multiple of 2.)

Use this [game](#) to look at identifying multiples.

Go onto [Purple Mash](#) and look at your 2Dos. A [recall game](#) of your 5 times tables has been set for you to do.

**Computing**

Design a box for your new computer game using [Purple Mash](#) > click on the 2Dos tab at the top > you will find the [Game box designer](#) task has been set for you.

**English**

[Oak Academy](#) (click link) - **Week 11**

One English lesson per day

**\*Additional Writing Challenge\***

Could you write some **instructions** for one of the science experiments you have conducted?

Remember to use time connectives.

**(TIP 3** Time connectives tell the reader when an action is happening. Eg. first, after that, meanwhile, finally.)

**Grammar and Spelling**

**\*Additional Challenge\***

Pick 3 letters and try to make the longest word with those letters in. As an extra challenge can you think of a word with the letters in that order. You could use the 3 letters at the end of a car registration plate. Eg. EPT - **respectful**

**Reading -** We would like you to read or listen to a story for at least 20 minutes a day.

Can you find some instructions you can read? You could look at a recipe or instructions for how to build something. Look out for the time connectives.

Remember, if you haven't already, it would be great for you to sign up for the summer reading challenge.

Log onto [the summer reading challenge website](#). This year it is called The Silly Squad, take a look and get reading.

**Transition- Looking back**

Take time this week to look back over your time in **Year 2**.

Draw a road like the image below and add in some of your favourite memories from this school year along the road.

These could be about your favourite topic, a fun time with your friends and your teacher or be about a visit/ visitor. Remember to think about the things you are most proud of and the things you have achieved.

**Music**

Go onto [Purple Mash](#) > Click on the 2Dos tab at the top. You will find a task using [2Explore](#), which we have used in lessons.

**TIP 4** if you need help, click on this button  in 2Explore to remind you of how to use the program.

**PE**

How did your dancer's pose challenge go? If you can now hold it on both legs you could try airplane pose. You can find out more

information [here](#) to help you.

**(TIP 5** Stand up tall, move your arms first, next lean forwards and then move your leg.)

**One Minute challenge** - Can you hold airplane pose for 1 minute? Can you do it on both legs?
