### Wellbeing- 5 steps to wellbeing- World Children's Day

This weekend, it is World Children's Day (watch this short video [here](#)) – a day to celebrate children's rights around the world. Children's voices have been so powerful recently with regards to their future for example about equality in education or climate change. At school, we encourage all young people to use their right to speak on all matters that affect them – create a poster about an issue that matters to you in our country or the world.
