Number, shape & measures:

Number of the week: 7. Watch this [Numberblocks](#) episode about the number 7.

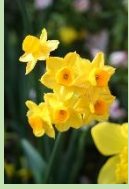

Shape of the week: heptagon. A heptagon is a 2D shape with 7 sides and 7 corners. Can you find a coin that is shaped like a heptagon?

Challenge:

In the second group you might see three rows of three. How can you make 9? You could try this activity with 10 small objects too.

Wellbeing- Creativity

The last 12 months have been memorable for lots of reasons. Through the difficult times, we have all found moments to celebrate in our families but also as a country. Often special events are commemorated in new coin designs – which is where you are needed!
Your task is to **design a new coin**. What will you choose as your design to celebrate the special achievements and memories from the last 12 months? You may wish to focus on a specific person, theme or event.
Don't forget to upload a photo of your design to Evidence Me
