

Curriculum Intent and Breadth Map - RE

Religious Education supports children to develop an understanding of the beliefs, values and practices of different religious traditions. The content of R.E. from the new Dudley syllabus has been divided into Key Stage. Now, more so than ever, it is vital that young people are able to understand themselves within our diverse society and to participate with peers whose background can often be different to their own. This is achieved through RE focuses throughout the year, in each year group.

		Autumn	Spring	Summer
