Appendix 1: Long term overview of PSHE

Appendix 2: Relationships Education, Relationships and Sex Education (RSE) and Health Education – Statutory guidance

1. Introduction

Personal, Social, Health and Economic Education (PSHE) is our comprehensive curriculum for supporting children's personal development, health, wellbeing and understanding of relationships.

We are required by law to teach **Relationships Education** and **Health Education** to all primary-aged pupils. We deliver these statutory subjects within our broader PSHE programme. Where we teach about human reproduction (sex education), we do so in line with the principles and approach of the 2025 Relationships, Sex and Health Education (RSHE) statutory guidance, in which **sex education** itself remains non-statutory (but recommended) in primary schools.

Our PSHE curriculum also includes age-appropriate aspects of **economic education**, preparing children to understand spending, saving and the world of work, and **citizenship education** including British Values, Protected Characteristics, helping children understand their rights, responsibilities and role in society.

This policy explains our whole-school approach to PSHE education and how we meet our statutory duties.

2. Our Vision for PSHE Education

At Gig Mill, we believe every child deserves an education that prepares them not only for academic success but also to thrive as rounded individuals in modern society. Personal, Social, Health and Economic (PSHE) education sits at the heart of this commitment.

PSHE is not an add-on to our curriculum; it is fundamental to our children's development as confident, healthy and respectful members of society. Through high-quality PSHE, we equip pupils with the knowledge, skills and attributes they need to stay safe, maintain wellbeing, and build positive relationships throughout their lives.

Our curriculum is carefully designed to be developmental and progressive. From the moment children join our school, they begin to explore emotional literacy—learning to recognise, name and talk about feelings. This foundation grows year by year, helping pupils to manage emotions, develop resilience, and make informed decisions that support their own and others' wellbeing.

By embedding PSHE across our school culture, we nurture a community where respect, inclusivity and responsibility flourish. In doing so, we prepare our pupils not only for the challenges of childhood but also for adulthood, work and active citizenship.

We are committed to:

- Supporting the whole child - recognising that children's emotional and social development directly impacts their capacity to learn
- Creating a safe, inclusive environment where every child feels valued and able to discuss concerns without fear or stigma

- Building foundations for the future - providing age-appropriate learning that prepares children for the challenges and opportunities of adolescence and beyond
- Working in partnership with families, recognising that parents are children's first educators in many aspects of relationships and health
- Embedding PSHE across school life - not just in weekly lessons, but through our values, relationships, and everyday interactions

3. Statutory and legal requirements

Under the Education Act 2002 and the Academies Act 2010, all schools must provide a curriculum that:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils
- Prepares pupils for the opportunities, responsibilities and experiences of later life

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

Our approach reflects the guiding principles of the 2025 RSHE statutory guidance, including meaningful engagement, transparency with parents and carers, careful curriculum sequencing, high-quality participative teaching and a whole-school approach to personal development.

We deliver statutory Relationships and Health Education within our comprehensive PSHE programme, using materials from the PSHE Association. This provides children with a carefully sequenced, age-appropriate curriculum that meets all statutory requirements whilst also developing wider personal and social capabilities. Our PSHE curriculum also supports our safeguarding responsibilities as set out in Keeping Children Safe in Education and the Prevent Duty, helping children to recognise concerns, stay safe online and offline, and seek help when needed.

Our curriculum addresses all statutory requirements including:

- Families and people who care for me
- Caring friendships
- Respectful, kind relationships
- Online safety and awareness
- Being safe
- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating

- Drugs, alcohol, tobacco and vaping
- Health protection and prevention
- Basic first aid
- Developing bodies (including puberty as part of Health Education)

A detailed mapping document showing how the PSHE Association programme covers every statutory outcome is available to view on request.

The school is committed to transparency with parents and carers regarding RSHE. Curriculum content, policy documents and teaching resources will be made available for review on request, and parents will be informed in advance of any sex education teaching.

4. Links to other policies and curriculum areas

PSHE does not exist in isolation but connects closely with other areas of school life and curriculum. This PSHE policy should be read in conjunction with our:

- Safeguarding and Child Protection policy
- Behaviour policy
- Anti-Bullying and Prejudice-related behaviour policy
- Online Safety / E-Safety policy
- Equality and Diversity policy
- SEND policy

4.1 Links Across the Curriculum

PSHE learning is reinforced through other curriculum subjects including:

- Science: Learning about the human body, life cycles, health, drugs and their effects, puberty and reproduction.
- Computing: Online safety, respectful online communication, understanding how technology works and is used.
- PE: Physical health, benefits of exercise, teamwork, resilience, managing success and failure.
- Religious Education: Moral questions, values, beliefs and world views, diversity and respect.
- English: Texts often provide opportunities to explore PSHE themes including relationships, diversity, moral dilemmas, resilience and identity.

Teachers actively make connections between PSHE and other learning, reinforcing understanding and helping children to see how PSHE knowledge and skills apply across different contexts.

5. Relationships and Health Education: Statutory Content

5.1 Definition of Relationships Education

Relationships Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on teaching children the fundamental building blocks of positive, respectful relationships with family, friends, peers and adults. See Appendix 2 for more details.

By the end of primary school, our children will understand:

- Families and people who care for me - That families come in many forms and all can provide love, security and stability; the characteristics of healthy family life; how to recognise unhealthy family relationships and seek help; marriage and civil partnerships as legal commitments.
- Caring friendships - How friendships contribute to happiness and security; characteristics of healthy friendships including mutual respect, trust, loyalty and kindness; how to recognise and navigate friendship difficulties; how to make and maintain positive friendships.
- Respectful, kind relationships - The importance of paying attention to others' needs; setting and respecting boundaries; communicating effectively and managing conflict with kindness; the importance of respect and self-respect; different types of bullying and how to respond; understanding stereotypes and how to challenge them.
- Online safety and awareness - How to behave respectfully online; critically evaluating online relationships and information; understanding privacy and personal information; recognising and reporting online risks; age restrictions for social media; understanding that content online can be inappropriate or upsetting. Pupils will develop an understanding that some online content may be artificially generated or manipulated, and will learn strategies for critically evaluating information, images and videos online. Pupils will learn about online financial harms including scams, fraud, gaming monetisation and persuasive online marketing.
- Being safe - Understanding appropriate and inappropriate boundaries; concepts of privacy and consent; that each person's body belongs to them; how to recognise when relationships are unsafe; how to respond to concerning adults; how to report abuse and seek help with confidence.

5.2 Definition of Health Education

Health Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on supporting children to make informed decisions about their health and wellbeing. See Appendix 2 for more details.

By the end of primary school, our children will understand:

- Mental wellbeing - The normal range of emotions; how to recognise, talk about and manage feelings; simple self-care techniques; that mental health challenges are common and can be supported; where and how to seek help when needed.
- Internet safety and harms - The benefits and risks of internet use; rationing screen time; recognising and displaying respectful online behaviour; age restrictions on games and apps; being discerning about online information; where to report concerns.

- Physical health and fitness - Benefits of an active lifestyle; building regular physical activity into routines; risks of inactive lifestyles; when to seek health support.
- Healthy eating - What constitutes a healthy diet; principles of healthy meal planning; risks of unhealthy eating including impacts on teeth and weight; impacts of alcohol on health.
- Drugs, alcohol, tobacco and vaping - Age-appropriate facts about legal and illegal substances and associated risks, including the risks of nicotine addiction.
- Health protection and prevention - Recognising early signs of illness; sun safety; importance of good quality sleep; dental health and oral hygiene; personal hygiene and germ spread; facts about vaccination and immunisation.
- Personal safety - Recognising hazards and reducing risks; including fire safety, road safety, rail safety and water safety; when and how to seek help in emergencies.
- Basic first aid - How to make emergency calls; dealing with common injuries including head injuries.
- Developing bodies - Understanding growth and body changes during adolescence; correct names for body parts; facts about the menstrual cycle including physical and emotional changes (noting that whilst average age of menstruation is 12, it can begin from age 8, so we teach this content before girls experience menstruation).

5.3 Definition of Relationships and Sex Education

Sex education is not compulsory in primary schools, however the Department for Education recommends that all primary schools teach age-appropriate sex education to ensure children are prepared for the changes adolescence brings and understand how human life begins.

At Gig Mill, our approach to sex education forms part of PSHE curriculum (subject to parental withdrawal.) We teach age-appropriate sex education in Year 6 as part of our PSHE curriculum, going beyond the statutory content about puberty to include factual information about human reproduction. We believe this information is important for children before they leave primary school, particularly as children naturally become more aware and curious about how life begins, and may seek information from less reliable sources if we do not provide age-appropriate, factual teaching. Our puberty, menstruation and sex education sessions are delivered by our school nurse, supported by school staff.

We define sex education as learning about human reproduction. It is defined as those lessons covering sexual intercourse, conception, the stages of pregnancy and birth. It includes the emotional impact of having a baby as well as the physical facts. Sex education is not learning about different types of sexual activity.

This is distinct from the statutory Health Education content about puberty and menstruation, and from Science curriculum content about life cycles and reproduction in mammals, from which children cannot be withdrawn.

5.4 Parent Engagement and the Right to Withdraw from Sex Education

The school hopes that parents will feel comfortable with and understand the importance of the education provided to their children as described in this policy. Parents have the right to

request that their child be withdrawn from some or all of sex education taught as part of PSHE. Parents do NOT have the right to withdraw children from:

- Relationships Education (statutory)
- Health Education, including puberty education (statutory)
- Science curriculum content, including content about reproduction (statutory)

We inform parents about sex education content by holding parent information sessions with the school nurse, and making all materials available for viewing on request by appointment with the school nurse.

Before deciding to withdraw a child from sex education, we invite parents to discuss their concerns with the Head of School. This discussion helps us to understand the request and enables us to clarify the nature and purpose of the curriculum, discuss the benefits of the education, and consider any potential impacts of withdrawal on the child.

Where a parent requests withdrawal, they should state this in writing and send it to the Head of School.

6. Curriculum content and organisation – PSHE Association: A Whole-School Framework

The curriculum will be taught using a combination of the following:

- class teachers
- school nurse
- school leaders and visiting speakers in assemblies
- theme weeks / focus days
- school council / junior leader roles
- delivery of Picture News – weekly focus on British Values / Protected Characteristics

Our children will be taught in a safe and supportive learning environment. Children will be given time for discussion, use high quality resources and pupils' work will be regularly recorded in a class floor book to enable ideas to be revisited throughout the year. Lessons will also signpost key words & phrases, building a rich vocabulary to develop understanding.

We use the PSHE Association as our curriculum framework because it provides a comprehensive, carefully sequenced scheme of work that brings consistency and progression to children's learning across their primary years. Built on current research and best practice in child development, safeguarding and health education, it is kept continuously up to date with evolving statutory guidance and enables us to deliver high-quality PSHE education that meets our children's needs. See Appendix 1 for the long term planning overview.

6.1 Adapting our approach for our school community

We recognise that our children, families and context have specific needs and characteristics. Our PSHE lead and class teachers carefully consider each lesson's content and approach to ensure it is appropriate and relevant for our pupils, taking into account:

- The specific needs, experiences and developmental stages of pupils in each class
- Pupil voice - gathered through feedback within lessons and informal discussions with children
- Local context and community considerations
- Feedback from parents, pupils and staff
- Our school's distinctive values and ethos

7. Delivery of RSHE, Relationships and Health Education, including managing difficult questions

Teachers will establish ground rules with the class at the beginning of the programme. On occasions, when an explicit or difficult question is asked in the classroom, the question does not have to be answered directly. It may be answered individually at a later point or not at all if deemed inappropriate for the age of the child. Teachers will be asked to use their professional judgement and seek guidance/advice from a member of the leadership team if uncertain.

8. Inclusive Practice and Equality

We are committed to an inclusive PSHE curriculum that is accessible to and respectful of all children and families.

8.1 Meeting the Equality Act 2010

We comply with the Equality Act 2010 and the Public Sector Equality Duty, ensuring that PSHE is taught in a way that:

- Does not subject pupils to discrimination
 - Promotes equality of opportunity
 - Fosters good relations between people with protected characteristics and those without
- The protected characteristics are: age, disability, gender reassignment, marriage or civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

8.2 Teaching about Families and Relationships

Our curriculum presents families in all their forms, recognising that children come from diverse family backgrounds including:

- Single parent families
- Same-sex parent families
- Families headed by grandparents or other relatives
- Adoptive families
- Foster families
- Kinship care arrangements
- Blended families
- Families from different cultural and religious backgrounds
- Service families, including those where a parent or carer serves in the armed forces

We ensure that no child is stigmatised based on their home circumstances and that all family structures are represented positively in our teaching. When discussing families, we emphasise that the key characteristic of families is that they provide love, care, stability and security for children, not a particular structure.

8.3 Including LGBT Content

Throughout PSHE education, children learn that all people deserve to be treated with respect and kindness, regardless of difference. This is a fundamental principle that runs through all our teaching. In teaching about families and relationships, we include same-sex parents alongside other family structures, presented naturally as one of the many different types of families that children may have or encounter. This content is integrated throughout the curriculum rather than taught as a standalone topic, ensuring that diverse families are visible and valued within our school community.

Children learn about treating others with kindness and respect, understanding that people have protection from discrimination and should be treated with dignity and respect, and that there are laws in place to protect people's rights. Pupils learn how bullying or discriminatory behaviour is never acceptable and how to report this for themselves or others.

8.4 Challenging Stereotypes and Promoting Respect

Throughout our PSHE curriculum, we actively work to break down harmful stereotypes, including gender stereotypes that can limit children's aspirations, reinforce inequalities, or contribute to disrespectful behaviour, and explain how some characteristics are protected under UK law. As children progress through the programme, they encounter a number of protected characteristics in age-appropriate ways, understanding why certain groups have legal protection from discrimination and how this relates to treating all people with dignity and respect.

Age-appropriately, we address how stereotypes and prejudiced attitudes, including misogyny, can lead to unkind behaviour, bullying, and a lack of respect in relationships. We make clear that everyone - boys and girls - has responsibility for treating others with kindness and respect, and that harmful attitudes or language are never acceptable.

This approach supports both safeguarding and the development of healthy, equal relationships, helping all children to feel valued and to respect others.

8.5 Supporting Children with SEND

Children with special educational needs and/or disabilities receive appropriate, adapted PSHE education that meets their needs. PSHE is particularly important for children with SEND, who may be more vulnerable to exploitation, abuse and bullying. Teachers adapt lessons to ensure content is accessible, using:

- Visual supports, simplified language, concrete examples
- Additional pre-teaching or small group work where needed
- Extended time for processing and responding
- Scaffolded learning where appropriate
- Personalised social stories or resources where appropriate

For some children with SEND, certain PSHE content may need to be taught in different ways or at different times to ensure understanding and safety. The SENCO works closely with the PSHE lead and class teachers to ensure appropriate provision.

8.6 Respecting Religion and Belief

We respect the religious backgrounds and beliefs of all families in our school community. PSHE content is delivered in a factual, objective manner, presenting scientific and medical information accurately whilst being sensitive to diverse religious perspectives.

Where relevant, we may discuss different views held by religious communities on particular issues, helping children to understand that people's beliefs inform their values and choices. This is done in a way that promotes respect for diversity of belief whilst being clear about the law and children's rights.

9. Safeguarding and Support

PSHE education has a crucial role in our safeguarding provision, equipping children with the knowledge and skills to keep themselves safe and to seek help when needed.

Through PSHE, children learn to:

- Recognise when relationships or situations are unsafe
- Understand that abuse is never their fault
- Know a range of trusted adults they can talk to
- Develop vocabulary to express concerns clearly
- Build confidence to keep asking for help until they are heard
- Understand their rights over their own bodies and personal information
- Recognise emotional, physical and sexual abuse
- Identify risks online and in the physical world
- Develop resilience and strategies for managing difficult situations

9.1 Managing Disclosures and Concerns

PSHE lessons, particularly those addressing sensitive topics, may lead to disclosures from children. All staff are trained to:

- Respond calmly and supportively to disclosures
- Never promise confidentiality (explaining that some concerns must be shared to keep children safe)
- Listen carefully without asking leading questions

- Record concerns accurately and immediately
- Report all concerns to the Designated Safeguarding Lead (or deputy DSL) without delay via CPOMs

All staff delivering PSHE education are familiar with our safeguarding and child protection policy and procedures. Where external visitors contribute to PSHE delivery, they are briefed on safeguarding procedures before working with children.

9.2 Signposting to Support

We actively encourage children to talk with their families about their worries and concerns, recognising that parents and carers are often the first and most important source of support. At the same time, we understand that for a small number of children, there may be times when they want or need to seek support from other trusted adults, and we ensure children know how to do this when needed.

Within PSHE lessons and through displays, assemblies and other communications, children are regularly informed about sources of support both within school and externally:

- Named trusted adults within school
- How to access pastoral support
- External helplines relevant to their age (e.g., Childline)
- Basic first aid knowledge and understanding of when and how to seek medical help
- Emergency services and how to access them

It is positive and healthy for all children to have a range of trusted adults they can turn to for support - within their family, at school, and in the wider community. Our PSHE curriculum emphasises that seeking help is a sign of strength, not weakness, and that support is always available.

10. Roles and Responsibilities

All members of the school community are expected to follow this policy. Roles, responsibilities and expectations of each section of the School and Trust community are set out in detail below.

10.1 The Chief Executive Officer

The CEO will ensure that RSE, Relationships and Health Education is taught consistently across the schools within the Trust and will report back to the Board of Trustees on educational outcomes. They will ensure that senior staff receive regular professional development training in how to deliver RSE.

10.2 Trustees

The Board of Trustees will review and monitor the application and implementation of this policy by receiving regular reports from the Executive Headteacher on educational

outcomes. Trustees will review any issues that might arise and act as a point of challenge for decisions taken by the Executive Headteacher.

10.3 Executive Headteacher

The Executive Headteacher, with support from their respective Senior Leadership Team, will ensure that staff are supported and up to date with policy changes. They will ensure that RSHE is well led, effectively managed and well planned across various subjects (to avoid unnecessary duplication of topics) and that the quality of provision is subject to regular and effective self-evaluation. The Executive Headteacher will ensure that teaching is age-appropriate, delivered in ways that are accessible to all pupils with SEND and that the subjects are resourced, staffed and timetabled appropriately. They will ensure that teaching delivered by any external organisation is age-appropriate and accessible for pupils and will liaise with parents regarding any concerns or opinions regarding RSE, Relationships and Health Education provision and will manage parental requests for withdrawal of pupils from non-statutory, non-science components of RSE.

10.4 Staff

Teachers of RSE, Relationships and Health Education will ensure that they are up to date with school policy and curriculum requirements and will attend and engage in professional development training. Teachers will encourage pupils to communicate concerns regarding their social, personal and emotional development in confidence, listen to their needs and support them seriously. If a pupil comes to a member of staff with an issue that that member of staff feels they are not able to deal with alone, they will take this concern to their line-manager.

10.5 Parents

The role of parents in the development of their children's understanding about relationships is vital. Parents are the first teachers of their children. They have the most significant influence in enabling their children to grow and mature and to form healthy relationships. The school hopes to build a positive and supporting relationship with parents through mutual understanding, cooperation and trust. Parents are expected to share the responsibility of sex education and support their children's personal, social and emotional development. The school hopes parents will create an open home environment, where pupils can engage, discuss and continue to learn about matters that have been raised through school. Parents are also encouraged to seek additional support in this from the school where they feel it is needed.

10.6 Pupils

Pupils are expected to take RSE, Relationships and Health Education seriously. Pupils are expected to listen, be considerate of other pupils' feelings and beliefs, comply with class-set confidentiality rules and support one another with issues that arise during class. Pupils who fail to follow these standards of behaviour will be dealt with under the school's behaviour policy

11. Teacher Support and Professional Development

High-quality PSHE education requires confident, well-supported teachers who have the knowledge, skills and resources to deliver sensitive content effectively.

11.1 Supporting Our Teachers

We support staff delivering PSHE through:

- Comprehensive resources - The PSHE Association provides detailed lesson plans, teaching resources, assessment materials and guidance ensuring consistency across year groups.
- Regular professional development - Staff receive training on:
 - Managing difficult questions and discussions
 - Safeguarding and responding to disclosures
 - Creating safe, inclusive classroom environments
 - Current issues affecting children (e.g., online safety, mental health)
- Collaborative planning and review - to plan and share effective practice, discuss challenges, and support each other in delivering sensitive content.
- Senior leadership support - The PSHE lead and senior leadership team provide ongoing support, including observing lessons where helpful, advising on complex situations, and ensuring staff wellbeing.
- Access to specialist support - Where needed, we access support from external specialists including school nurses, PSHE advisors, mental health professionals and other local services to enhance staff knowledge and lesson delivery.

11.2 Creating Confident, Skilled Practitioners

We recognise that teaching PSHE requires particular skills:

- Creating safe, non-judgemental spaces for discussion
- Using distancing techniques when discussing sensitive content
- Facilitating participative, interactive learning rather than delivering information
- Responding to unexpected questions or disclosures
- Managing the balance between planned content and responsive teaching
- Supporting children who may find topics triggering or upsetting

Ongoing professional development helps our staff to develop and refine these skills, ensuring that PSHE teaching is consistently effective across our school.

12. Assessment, Monitoring and Evaluation

We monitor and evaluate our PSHE provision to ensure it is meeting children's needs, is delivered consistently across the school, and is having positive impact on children's wellbeing and development. We track children's progress to ensure learning is embedded and to identify where additional support may be needed. Assessment in PSHE focuses on:

- Knowledge and understanding of key concepts
- Development of skills (e.g., communication, conflict resolution, decision-making)
- Ability to apply learning to real situations

For assessment, teachers will use a range of strategies including:

- Observation of discussions, role plays and collaborative activities
- Review of written work, children's self-assessments and reflections
- Brief formative assessments to check understanding

Progress in PSHE is shared through written reports and consultation meetings, with EYFS also using ongoing dialogue and regular updates for PSED. Where beneficial, the school works with parents to provide targeted support such as ELSA, nurture groups or pastoral check-ins.

13. Monitoring Quality and Impact

The PSHE lead, working with senior leadership, monitors PSHE provision through:

- Regular review of planning and teaching materials
- Learning walks and lesson observations
- Review of children's work and assessment information
- Pupil voice activities to understand children's experience of PSHE
- Staff feedback on confidence, resources and support needs
- Analysis of behaviour, wellbeing and safeguarding data from CPOMs monitoring
- Parent feedback through surveys and consultation

Monitoring enables us to celebrate effective practice, identify areas for development, and ensure consistency in quality across the school.

14. Evaluating Impact

We evaluate the impact of PSHE education by looking at:

- Children's knowledge, skills and confidence as evidenced through assessment
- Quality of relationships between children and between children and adults
- Positive behaviour and ability to resolve conflicts constructively
- Children's wellbeing and mental health indicators
- Children's confidence in seeking help and reporting concerns
- Safeguarding data and how well children identify and report concerns
- Lifestyles Survey Data
- Preparedness for transition to secondary school

This evaluation informs ongoing improvement of our PSHE provision and contributes to our annual policy review.

Appendix 1 – long term overview of PSHE (Key stages 1 and 2):

Curriculum Intent and Breadth Map - PSHE							
		Autumn		Spring		Summer	
Key Stage 1	Year 1	Making friends: playing and learning together	Mental health and wellbeing	Celebrating me, you and our families	Safety at home	Being healthy	Showing kindness to ourselves and others
	Year 2	Mental health and wellbeing	Keeping safe online	Me, my body and staying safe	Money and work	Safety outside the home	Looking back and moving on
Key Stage 2	Year 3	Me, my friends and belonging	Mental health and wellbeing	Building healthy habits	Making choices online	Keeping safe out and about	Looking out for each other
	Year 4	Mental health and wellbeing	Exploring ways to manage risk	Forming respectful relationships	Money matters and news literacy	Me, my body and growing up	Families and growing together
	Year 5	Friendships, stereotypes and bullying	Mental health and wellbeing	Positively engaging with our world	Respecting boundaries	Safe connections online	Embedding healthy habits and learning first aid
	Year 6	Mental health and wellbeing	Managing money and online spending	Developing our AI literacy	Drug education: assessing risk and managing influences	Changes in puberty (and sex education)	Looking to the future

Appendix 2 – Relationships Education, Relationships and Sex Education (RSE) and Health Education - Statutory guidance

Relationships education: content to be covered by the end of primary

Families and people who care for me

Curriculum content:

1. That families are important for children growing up safe and happy because they can provide love, security and stability.
2. The characteristics of safe and happy family life, such as commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
3. That the families of other children, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
4. That stable, caring relationships are at the heart of safe and happy families and are important for children's security as they grow up.
5. That marriage and civil partnerships represent a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
6. How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

Curriculum content:

1. How important friendships are in making us feel happy and secure, and how people choose and make friends.
2. That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. Pupils should learn skills for developing caring, kind friendships.
3. That not every child will have the friends they would like at all times, that most

people feel lonely sometimes, and that there is no shame in feeling lonely or talking about it.

4. The characteristics of friendships that lead to happiness and security, including mutual respect, honesty, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
5. That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened.
6. How to manage conflict, and that resorting to violence is never right.
7. How to recognise when a friendship is making them feel unhappy or uncomfortable, and how to get support when needed.

Respectful, kind relationships

Curriculum content:

1. How to pay attention to the needs and preferences of others, including in families and friendships. Pupils should be encouraged to discuss how we balance the needs and wishes of different people in relationships and why this can be complicated.
2. The importance of setting and respecting healthy boundaries in relationships with friends, family, peers and adults.
3. How to communicate effectively and manage conflict with kindness and respect; how to be assertive and express needs and boundaries; how to manage feelings, including disappointment and frustration.
4. Pupils should have opportunities to discuss the difference between being assertive and being controlling, and conversely the difference between being kind to other people and neglecting your own needs.
5. That they can expect to be treated with respect by others, and the importance of respecting others, including those who are different (for example, physically, in character, personality or backgrounds), or make different choices, or have different preferences or beliefs.
6. Practical steps they can take and skills they can develop in a range of different

contexts to improve or support their relationships.

7. The conventions of courtesy and manners.

8. The importance of self-respect and how this links to their own happiness. Pupils should have opportunities to think about how they foster their own self-esteem and build a strong sense of their own identity, including through developing skills and interests.

9. The different types of bullying (including online bullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult), and how to get help.

10. What a stereotype is, how stereotypes can be unfair, negative, destructive or lead to bullying and how to challenge a stereotype.

11. How to seek help when needed, including when they are concerned about violence, harm, or when they are unsure who to trust.

Online safety and awareness

Curriculum content:

1. That people should be respectful in online interactions, and that the same principles apply to online relationships as to face-to-face relationships, including where people are anonymous. For example, the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure.

2. How to critically evaluate their online relationships and sources of information, including awareness of the risks associated with people they have never met. For example, that people sometimes behave differently online, including pretending to be someone else, or pretending to be a child, and that this can lead to dangerous situations. How to recognise harmful content or harmful contact, and how to report this.

3. That there is a minimum age for joining social media sites (currently 13), which protects children from inappropriate content or unsafe contact with older social

media users, who may be strangers, including other children and adults.

4. The importance of exercising caution about sharing any information about themselves online. Understanding the importance of privacy and location settings to protect information online.

5. Online risks, including that any material provided online might be circulated, and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up.

6. That the internet contains a lot of content that can be inappropriate and upsetting for children, and where to go for advice and support when they feel worried or concerned about something they have seen or engaged with online.

Being Safe

Curriculum content:

1. What sorts of boundaries are appropriate in friendships with peers and others (including online). This can include learning about boundaries in play and in negotiations about space, toys, books, resources etc.

2. The concept of privacy and its implications for both children and adults; including that it is not always right to keep secrets if they relate to being safe.

3. That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe contact, including physical contact.

4. How to respond safely and appropriately to adults they may encounter (in all contexts, including online), including those they do and do not know.

5. How to recognise when a relationship is harmful or dangerous, including skills for recognising who to trust and who not to trust.

6. How to report abuse, concerns about something seen online or experienced in real life, or feelings of being unsafe or feeling bad about any adult and the vocabulary and confidence needed to do so.

7. How to ask for advice or help for themselves or others, and to keep trying until they are heard. Where to get advice e.g. family, school and/or other sources.

Primary health and wellbeing: content to be covered by the end of primary

General wellbeing

Curriculum content:

1. The benefits of physical activity, time outdoors, and helping others for health, wellbeing and happiness. Simple self-care techniques, including the importance of rest, time spent with friends and family, as well as hobbies, interests and community participation.
2. The importance of promoting general wellbeing and physical health.
3. The range and scale of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) that they might experience in different situations. Pupils should understand that worrying and feeling down are normal, affect everyone at different times, and are not in themselves a sign of a mental health condition.
4. How to recognise feelings and use varied vocabulary to talk about their own and others' feelings.
5. How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
6. That isolation and loneliness can affect children, and the benefits of seeking support.
7. That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing and how to seek help for themselves or others.
8. That change and loss, including bereavement, can provoke a range of feelings, that grief is a natural response to bereavement, and that everyone grieves differently.
9. Where and how to seek support (including recognising the triggers for seeking support), including who in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online).
10. That it is common to experience mental health problems, and early support can help.

Wellbeing online

Curriculum content:

1. That for almost everyone the internet is an integral part of life. Pupils should be supported to think about positive and negative aspects of the internet.
2. Pupils should be supported to discuss how online relationships can complement and support meaningful in-person relationships, but also how they might be in tension, and the reasons why online relationships are unlikely to be a good substitute for high quality in-person relationships, looking at the pros and cons of different ways of using online connection.
3. The benefits of limiting time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing.
4. How to consider the impact of their online behaviour on others, and how to recognise and display respectful behaviour online.
5. Why social media, some apps, computer games and online gaming, including gambling sites, are age restricted.
6. The risks relating to online gaming, video game monetisation, scams, fraud and other financial harms, and that gaming can become addictive.
7. How to take a critical approach to what they see and read online and make responsible decisions about which content, including content on social media and apps, is appropriate for them.
8. That abuse, bullying and harassment can take place online and that this can impact wellbeing. How to seek support from trusted adults.
9. How to understand the information they find online, including from search engines, and know how information is selected and targeted.
10. That they have rights in relation to sharing personal data, privacy and consent.
11. Where and how to report concerns and get support with issues online.

Physical health and fitness

Curriculum content:

1. The characteristics and mental and physical benefits of an active lifestyle.
2. The importance of building regular physical activity into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, moderate and/or vigorous physical activity.
3. The risks associated with an inactive lifestyle, including obesity.
4. How and when to seek support including which adults to speak to in school if they are worried about their health.

Healthy eating

Curriculum content:

1. What constitutes a healthy diet (including understanding calories and other nutritional content).
2. Understanding the importance of a healthy relationship with food.
3. The principles of planning and preparing a range of healthy meals.
4. The characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).

Drugs, alcohol, tobacco and vaping

Curriculum content:

1. The facts about legal and illegal harmful substances and associated risks, including smoking, vaping, alcohol use and drug-taking. This should include the risks of nicotine addiction, which are also caused by other nicotine products such as nicotine pouches.

Health protection and prevention

Curriculum content:

1. How to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body.
2. About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
3. The importance of sufficient good quality sleep for health, the amount of sleep recommended for their age, and practical steps for improving sleep, such as not using screens in the bedroom. The impact of poor sleep on weight, mood and ability to learn.
4. About dental health and the benefits of good oral hygiene, including brushing teeth twice a day with fluoride toothpaste, cleaning between teeth, and regular check ups at the dentist.
5. About personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.
6. The facts and scientific evidence relating to vaccination and immunisation. The introduction of topics relating to vaccination and immunisation should be aligned with when vaccinations are offered to pupils.

Personal safety

Curriculum content:

1. About hazards (including fire risks) that may cause harm, injury or risk and ways to reduce risks.
2. How to recognise risk and keep safe around roads, railways, including level crossings, and water, including the water safety code.

Basic first aid

Curriculum content:

1. How to make a clear and efficient call to emergency services if necessary, including the importance of reporting incidents rather than filming them.
2. Concepts of basic first aid, for example dealing with common injuries and ailments, including head injuries.

Developing bodies

Curriculum content:

1. About growth and other ways the body can change and develop, particularly during adolescence. This topic should include the human lifecycle, and puberty should be discussed as a stage in this process.
2. The correct names of body parts, including the penis, vulva, vagina, testicles, scrotum, nipples. Pupils should understand that all of these parts of the body are private and have skills to understand and express their own boundaries around these body parts.
3. The facts about the menstrual cycle, including physical and emotional changes, whilst the average age of the onset of menstruation is twelve, periods can start at eight, so covering this topic before girls' periods start will help them understand what to expect and avoid distress.
